

# FLOOR COATINGS & SECONDARY CONTAINMENT

# Specialty and protective custom coatings for any industry

US Coatings is a leading provider of high-performance coatings and linings. We custom tailor our industrial coating products to fit the needs of clients across a wide variety of markets. And we pride ourselves on offering superior customer service through the duration of the job.

Founded in 2000 in St. Louis, Missouri, US Coatings has emerged as a company doing business all over the country, with close connections spanning a vast number of specialty coatings markets. Despite this success, we're committed to remaining nimble enough to be able to take on any coatings challenge, large or small.

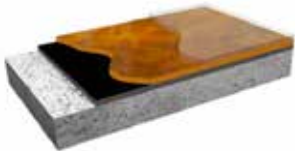

US Coatings is focused on building relationships with our customers so we're here before, during and after the sale with personalized attention to your project that our competitors can't match. More than just manufacturers of coatings, we take collaborating with our customers seriously, providing superior service throughout the course of your job.

# CONCRETE PROTECTION YOU CAN STAND ON

We protect the concrete tasked with withstanding the toughest jobs in the toughest environments. Power, Marine, and Mining environments— must stand up to sustained abuse without fail & continue to protect.

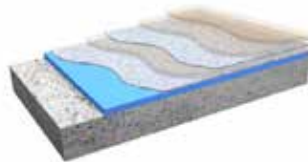

Our flooring line offers time tested 100% solids epoxies, advanced polyaspartics and siloxane solutions that stay two steps ahead of the industry.

100% SOLIDS SELF-LEVELING EPOXIES  
PRIMER/FINISH**

**GOOD  
PERFORMANCE**

**AQUAGRIP 2600 SERIES  
WATER BASED EPOXY PRIMER/FINISH**

# SECONDARY CONTAINMENT— THE FINAL LINE OF DEFENSE

US Coatings loves ugly concrete. We solve issues from spalling cement, exposed rebar and linings for all those assorted toxic materials scattered throughout an operation. There's no shortage of substrates in industrial facilities that need to be shielded from harsh chemicals and extreme temperatures. GripLine is protecting your most precious asset...peace of mind.

**100% SOLIDS NOVOLAC EPOXY LINING**

**GOOD  
PERFORMANCE**

**EPOXYGRIP® 6200 SERIES**

**HIGHLY CROSSLINKED EPOXY LINING**

# ULTIMATE CONCRETE PROTECTION—

Concrete has been compared to a sponge made of stone. Imagine millions of capillaries to trap moisture and bacteria . This can mean trouble for floor coatings. However, GripCrete has the unique ability handle moisture vapor at any level. Whether chemical resistance, VOC concentrations, or gloss level is the priority... US Coatings can create the right system to protect your assets. No matter what service.

**EXCELLENT

GripCrete SL

Generic Type	Markets	Gloss	Solids	Features /Benefits	Dry Time to Tack Free	Dry Time to Service at @ 70 F
Polyaspartic	Commercial Residential Industrial	90+	76%	Highly UV resistant, 2-4 recoat time, Excellent hot tire resistance	2-3 hrs	2-4 hrs
Self Leveling Epoxy	Commercial Residential Industrial	90+	100%	Very Good chemical resistance, zero odor, great flow and leveling	5-6 hrs	12-24 hrs
WB Epoxy	Commercial Residential Industrial	S/G-H/G	56%	WB, Self Priming, low odor, 2K, fast dry	0.5-1.0 hrs	2-3 hrs
Vinyl Ester	Excellent	Matte	100%	Withstands high temps, low shrinkage, 98% sulfuric service, Low permeation, Glass Flake	8-12 hrs	24 hrs
100% Solids Novolac Epoxy	Very Good	Gloss	100%	Thermal shock protections, Excellent abrasion resistance, Resists 98% sulfuric acid	12 hrs	24 hrs
100% Solids Epoxy	Good	Gloss	80%	High Build, one coat capability , very good chemical resistance	3-4 hours	6-8 hrs
Trowel Grade Urethane Cement	Excellent	Matte*	100%	-50-250 F temperature service, Slip resistance, resists mechanical impact	6-8 hrs	24 hrs
Rake & Trowel Grade Urethane Cement	Excellent	Matte*	100%	Versatile application, heat resistant up 250F, Outperforms epoxy systems, Meets ADA slip requirements	8 hours	24 hrs
Slurry Grade Urethane Cement	Very Good	Matte*	100%	Self leveling, chemical resistance, MVT up to 12 lbs./24 hr	12 hrs	24 hrs
